Dear Diane:

I have been cataloging UFO sightings, including (published) abductions, for around 15 years.

This is my opinion only of course, but I now believe that one of the LAST things an alien will tell you or anyone else is where they come from .. be it the Future, someplace in space, another dimension or whatever. I lean toward the nuts-and-bolts and ET interpretation, but I'm open to the other options.

I see a clear and consistent pattern of mis, dis, and non-information, so complete and compelling that so-called "government conspirators", assuming they exist at all, can only stand in awe.

Best wishes

- Larry Hatch
