Stig, Ross (& List)

Someone better qualified than myself can please verify this . .

To the best of my knowledge it is illegal for people in Oz to

own meteorite debris and therefore they (we) have no legal right to sell them.

An act of parliament has laid claim to all such objects for the purposes of the scientific research and , therefore, for the whole community and not just those fortunate enough to find them and wanting to make a quick buck.

These are the "local Considerations".

Regards,  
Leanne ];-)
