Dear People,

This article was emailed to me by Jim Hickman and several others. It was the first I saw it and I never interviewed with that reporter. I did interview with the editor, Mike. He asked me if Steve Bassett was still with the campaign and I said no and that I didn't even know what he was doing now. That was all that was said.

I still have all the friends I started with regarding the Phoenix Lights and have not nor will I ever distance myself from them. There are some really neat people that I met due to whatever it was over Arizona.

It seems so interesting that first they blasted me for asking the question and now they are trying to cause disension within the ranks. The Tucson paper has never been known for their accuracy and is known as the Red Star even by Tucsonians. Wonder why?

If you have any doubt that I will stop pushing for answers regarding March 13, please put it to rest.

Most of the UFO community have been invited over to my house election night. I would not be writing this now if I shyed away from questioning the govt. or if I reacted to pressure to change my thinking.

Remember all the people that have been attacked from within and don't fall for the last minute minipulations of the news media

who are afraid to ask the govt the tough questions. They only know how to create gossip. Feel free to visit my website. I wish that I was asked about this before it was assumed the article was correct.

Thank you and please feel free to call, email or write.
