Because many people saw and felt the first nuclear explosion at
Trinity site in July, 1945, the base commander issued a press
release saying that an ammunition dump had blown up, but
fortunately nobody was injured.. It was a total lie.

I have the clippings. Sometimes it was necessary to lie for
national security interests. The government initially lied about
Gary Powers U-2 flight.. blown off course by the wind.. until
Khrushchev provided the plane, pilot, and camera.

Let us not be naive.
