MILAB research information

After I published my third MILAB article in the MUFON UFO Journal, April 1999, No. 372, and a reply concerning an article which tried to debunk the research on alleged military involvement in alien abduction phenomena by Victoria Alexander (CAUS updates, March 1999) and our book MILABS, the MILAB critics try to connect my private research interests with the department where I work.

Therefore, I inform all readers that my research in UFO phenomena, abductions and MILABS is not connected with my work as a space scientist, does not represent the opinion of my department, my director, etc. and is not supported by them. This research is only private and only my own hypothesis, which is supported via investigative journalism ..

I do also not claim that the whole US military or related intelligence agencies are involved in alien abductions, UFO-research, kidnappings of abductees, examinations, etc., and I am not anti-American!

But it is my democratic opinion that there are indications that covert human forces may be involved in the abduction phenomenon. This is only "speculation" and the discussion about this should not be forbidden or censored in democratic societies, or do we live in the former Sowjetunion or Serbia?

It is a known fact that parts of the US military-intelligence agencies experimented on unwitting people during the cold war (New Scientist, No. 1961, 1995; No. 2030, 1996; No. 2058, 1996, etc.), although it was illegal. I do not believe that our MILAB critics can give us the guarantee that such secret experiments are stopped now.

Helmut Lammer, Ph.D.
