>I received a call from my contact in Blind River and she reported the following incident:

>On March 24, a woman from Algoma Mills (7 miles from Blind River) had a close encounter while driving towards Blind River, where she was going to pick up her daughter at the local Tim Horton's Donut Shop. The time was approximately 11:20 p.m.

>When she got within a half-mile from Blind River, she saw an object lifting off from behind some trees at an RV trailer lot, near the shores of Lake Huron.

>She described it as cigar-shaped and red and white in colour. The object was "as long as one treeline to the other" (wider than the highway).

>When she saw it lift up above the treeline, she pulled right over so that she could get out and watch. But when the object started coming over the highway, she decided to stay in the car.

>She sat there and watched as it came right over her car which, at that point, began to vibrate. That's when she hit the gas, she said, because "she just wanted to get out of there." At that moment, that's when it (the object) took off in a split second. It went right over the nearby hospital and was gone.

Dear Michel:

Can you tell us which direction the object went?

That is, which point on the compass, as the object sped over the hospital?

Thanx

- Larry Hatch
