Subject: UFO Over Cubatao, Sao Paulo

Dear fellas,

On August, 21, around 12:58 Am, Mr. Roberto Rabelo saw a huge UFO over the city of Cubatao, São Paulo.

He told that when he arrived at the ETA (Water Treatment Estation), and there were 3 others fellas watching the phenomenon.

"It was aorund 12:58 Am, dawn of August 21, and I looked to the north and there was a UFO at a low altitude".

"One of the operators sad that it should be a short-circuit in a near energy tower. Then we ascended the tower and realized that thing was not convencional. The UFO was higher!".

"The UFO had a red light on top and 3 others red lights below it, in a triangular shape. The lights did not blink. Seconds later, between the red lights, a lot of flashes, hundreds of white flashes! Then all dissapeared".

"I estimated that the UFO was bigger than a soccer field".

Once again the UFO appeared, just like the first time, but this time when the flash lights turned off, from the UFO another object, like a yellow ball, came out, wich was in direction of the COSIPA (a food factory).

For the third time the UFO appeared again and this time they were able to see a "shadow" behind it. Something triangular.

Finally the UFO was in east direction, passing over the COSIPA.

All the sighting lasted 20 minutes.
