Subject: UFO Sighting in Italy

Hello my name is Fabrizio Monaco and I am the international coordinator for the CISETI, an italian organization.

I have been reported of a sighting made on Dec 27 at 00:15 A.M. the place was Merlengo near Bolzano, about 700Km north-east from Rome. The object was "mothership" in shape and it was at about 2000Mt of altitude, probably it was huge because the witness said that it was big, like a lighter.

The object was moving approximately at 600 Km/h and after 1,5 minutes it moved up and disappeared in the sky. The weather was cloudy and the object was positioned over the clouds, the witness saw it because of the moon light. We are looking for other witnesses of this sighting, please let me know if you have further information on it. Thank you in advance.
