Hey Smurf

Let me guess, you were at ET C-7 in San Diego the first part of 76, right.

Several of us there then were scifi fans and regularly read all the magazines.

One of them [I want to say Analog, but I'm not sure] featured a story just like what you recounted.

Names escape me, it has been over twenty years, but a couple of guys in my class decided to see if they could fish anybody in. One would tell the story, then the other would chime in with the

'I saw the message traffic' routine.

It lasted about three weeks, we even talked about it during our class leader meeting once. ETCS thought it was hilarious.

Hope this jogs your memory some more.
