Filer's Files #05 -- 2000, MUFON Skywatch Investigations
George A. Filer, Director, Mutual UFO Network Eastern
February 6, 2000, Majorstar@aol.com (609) 654-0020
Web Site at www.filersfiles.com. -- Chuck Warren Webmaster.

ALMOST EVERYTHING YOU'RE TOLD IS WRONG:

ENVIRONMENTAL SPACE SCIENCES is a book written by Professor and Colonel Donald G. Carpenter who was the originator of the Space Science Course taught at the USAF Academy. He also served as the Commander of the SPACETRACK Radar Site at Shemya, Alaska. Colonel Carpenter was kind enough to send Eastern MUFON the book he edited and wrote with six other officers. He questions some of the laws of physics if we assume UFOs are real. The last chapter of his book is titled Unidentified Flying Objects and reads in part.

"It is obvious that intensive scientific study is needed in this area; no such study has yet been undertaken at the necessary levels of intensity needed. Something that must be guarded against in any such study is the trap of implicitly assuming that our knowledge of Physics (or any other branch of science) is complete. An example of one such trap is selecting a group of physical laws, which we now accept as valid, and assume that they will never be superseded. Five such laws might be:

1. Every action must have an opposite and equal reaction.
2. Every particle in the universe attracts every other particle with a force proportional to the product of the masses and inversely as the square of the distance.
3. Energy, mass and momentum are conserved.
4. No material body can have a speed as great as c , the speed of light in free space.
5. The maximum energy, E , which can be obtained from a body at rest is $E=mc^2$, where m is the rest mass of the body.

Laws numbered 1 and 3 seem fairly safe, but let us hesitate and take another look. Actually, law number 3 is only valid (now) from a relativistic viewpoint; and for that matter so are laws 4 and 5. But relativity completely revised these physical concepts after 1915, before then Newtonian mechanics were supreme. We should also note that general relativity has not yet been verified. Thus we have the peculiar situation of five laws which appear to deny the possibility of intelligent alien control of UFO's, yet three of the laws are recent in concept

and may not even be valid. Also, law number 2 has not yet been tested under conditions of large relative speeds or accelerations. We should not deny the possibility of alien control of UFO's on the basis of preconceived notions not established as related or relevant to the UFO's. Pages 690-691.

The NEW SCIENTIST article "SEEDS OF LIFE" January 22, 2000, reports, "The building blocks of DNA could have formed in space before the Earth was born, providing a starter kit of genetic material for life to evolve rapidly on Earth, claim astro-chemists in India. Their computer models of chemicals evolving in space may explain why life emerged only 600 million years after the Earth formed 4.5 billion years ago. The model also suggests that comets are packed with the building blocks of life. If true, it backs up the idea that comets seed when they smash into planets. Sandip Chakrabarti and his wife Sonali at the S. N. Bose National Centre for Basic Sciences in Calcutta modeled how chemicals would evolve in an interstellar cloud collapsing under gravity over a million years. The model began with a typical cloud 7 light years across, containing a dozen elements including hydrogen, carbon, oxygen and nitrogen. The computer worked out the variations and at the end of the simulation, the cloud was littered with adenine predicting Earth would have been showered with millions of tons of the DNA. "DNA produced in the collapsing cloud could have contaminated the Earth," the Chakrabartis will report in the journal Astronomy and Astrophysics. "There should be many such planets in each galaxy where DNA-based life should flourish." (But the idea remains controversial since it shoots holes in the Theory of Evolution, that life started by accident on Earth.)

Tom Millar of the University of Manchester Institute of Science and Technology, database of chemical reactions formed the basis of the new work. British researchers who suggested in 1977, that the ingredients of life originated in space and were dispersed by comets are delighted by the Indian findings. "It's yet another indication that the chemical feedstock of life could be produced throughout the Universe, and nothing on Earth would reproduce that grandeur of scale," says Chandra Wickramasinghe of the University of Wales at Cardiff, who suggested the idea along with his colleague Fred Hoyle. Thanks to: "Mark A. LeCuyer" <randydan@wavetech.net>

DNA MOLECULES MAY BE FROM SPACE

Colin Jordan writes concerning your FF-#4, Dr. Francis Crick won the Nobel Prize for helping to discover 'the structure of DNA,' the master molecule of life. He now believes that the 'origin of life' was from space. I was doing some reading recently and came across some surprising statements from Dr. Crick, made more remarkable still given his professional achievements. I think there is a prejudice among scientists regarding current evolutionary theories. Many of them have spent their careers considering the theory to be scientific fact and are loath to let that go. Their need to cling to that theory at all costs smacks more of faith than science. Besides the evidence that there was but a single genetic code, there is also the issue of so-called "simple" cell complexity. Crick wanted to determine the probability that even a single molecule of DNA could come into existence by chance. The probability for transition from inanimate to animate would be ten to the 40,000 th power. Mathematically speaking, anything above ten to the 50th power is considered statistically impossible, because the sum total of all the electrons in the universe is only ten to the fifty-second power. Apparently the average biological scientist is more concerned with not being wrong rather than discovering what is true. cjordan@gte.net (Colin Jordan)

Red Setter writes, "People today are very poor at real thinking: whether in astronomy, evolution, physics, UFOs, etc. We are no more correct than in Galileo's day, yet many scientists tell me that "we know so much that we can't be wrong!" And friends can't believe there is any real UFO phenomenon, or else "the press would have reported it!" So don't worry if they criticize you, because their brains are programmed by intensive indoctrination. See the new book "Galileo's Daughter" by Dava Sobel. "It claims it was academics that persecuted Galileo, not the Church." Thanks to

Red Setter.

CONNECTICUT UFO

My friend and I went out to a club, then stopped for McDonalds on the way home on January 15, 2000. We arrived home around 2:45 AM and pulled into her drive way. Since it was very cold, I asked her to keep her car running so we could wait inside until my car warmed up. I got out of her car, and started my car. As I got back into her car, I noticed a bright light went on. I thought it was her house flood lights turning on automatically. The next thing we remember was that it was 2 hours and 45 minutes later, Neither of us had a clue as to what happened, except for the fact we both were unconscious for almost 3 hours. Both of our cars were still running and neither of us had any physical evidence of abduction. We were not drunk nor on drugs. The next day, I told a friend my story and they checked my neck and back and found a small circle of five punctures in my upper back/lower neck. I was told that this was common in abductions. I am afraid for my well being. Thanks to Peter Davenport and the National UFO Reporting Center www.ufocenter.com

TENNESSEE DISC FADES IN AND OUT

BRENTWOOD -- On January 10, 2000, I saw an unidentified flying object at about 500 feet altitude above the Brentwood Middle School at 9:15 AM. As I drove along I had a totally unobstructed view of this object about 1/2 a mile away until Murray Lane became divided by a tree line. As I drove along the object appeared to be keeping pace with the speed of my car. The object then faded out of sight. The UFO had no wings, was silver pewter in color, and made no noise. After turning left onto Franklin Road I saw it again as it flew pacing my car at the exact same distance and altitude. I had a totally unobstructed view of the UFO as it flew low over a farmer's field. Again the object faded from my view, then three seconds later reappeared. I watched this object for another 12 seconds, until it faded from view for the last time. There also seemed to be an aura or hazy like disturbance in the air around the craft each time it faded from view. Thanks to Peter Davenport NUFORC www.ufocenter.com

FLORIDA

CLEARWATER -- Nimlok writes, "A few years ago, I was sitting on the back porch of my parents house having a party with four other relatives." It was around 8:30 PM, a very hot but clear night. All of a sudden, we all jumped to our feet and watched a UFO land right behind our house in a huge orange grove. I saw the bright lights and colors. The others described it as a "sphere" that had multi colored chasing lights around the band of the UFO. It made no noise and then just vanished into thin air. My aunt, uncle and grandfather all saw this at the same time. We jumped into our cars hoping to get another glimpse, but it was gone. Geographically, we are in a perfect position for these sightings and most people around this area have seen something strange. Thanks to Tiffany Stratton

ALABAMA COUPLE SEES UFO

TILLMANS CORNER - On December 28, 1999, Lynn L. and her husband were outdoors in Southern Alabama when they saw a UFO. "My husband and I were looking at the moon, and saw what we thought was a moving star. I got out of the car and looked at it. Two large bright lights were in front, with a red light in the middle. "It wasn't a plane, since it flew over us at a very slow speed, and made no sound" Lynn added, "The object was at an altitude of about 1,200 feet and was triangular in shape, with green and red lights." The aft-end was huge. "It looked like the were two big shapes on either end of it in the back." After the couple drove home, she added, "Strange things happened later that night in my house." "I know it sounds strange but a houseplant that I'd had for years turned up missing that same night. It just disappeared." Lynn found the flowerpot, but the plant and the pot's soil were missing. Hillmans Corner is eleven miles south of Mobile. Thanks to UFO

Masinaigan@aol.com

ILLINOIS UFO INVESTIGATION CONTINUES

I called Peter Davenport at the National UFO Reporting Center and spoke with John Alexander at National Institute for Discovery Science (NIDS). Their investigation has now located eight witnesses who observed the UFO in Southern Illinois east of St. Louis. Some of the police were chasing the UFO at speeds up to, 80 mph. The UFO moved very slowly at an estimated 20 mph. Then suddenly streaked 8 miles in 3 seconds, according to the witnesses. Craig Stevens in Millstadt saw it to the west of him seem to suddenly jump twenty to thirty miles. Assuming the witnesses were correct the craft moved at 9600 mph. The object was described as like a guitar pick with panel of lights red or pinkish lights. The aft-end of the craft was lit up indicating some type of the propulsion system.

Kenny Young interviewed Craig Stevens from the Millstadt Police Department. Craig said, "I was the Officer in Millstadt that witnessed the object at 4:28 AM on January 5, 2000." #1 - I feel that the testimony of four possibly five police officers is very credible, considering that we are trained observers. Our credibility has to be justifiable since we testify in a court of law. We watch things on a daily basis, and have to report our findings in evidence, and reports. I feel I have done this by attempting to capture the photo that morning, and immediately returning to the department to report my findings in a report, and making a drawing. Sketches of the object are shown on the NIDS web site at <http://www.accessny.com/nids>. For detailed investigation, sketches, route of flight see this excellent report. Thanks to Kenny Young, John Alexander and Peter Davenport who have all done excellent work on this case.

CALIFORNIA FLYING TRIANGLE

EDWARDS AIR FORCE BASE -- Billy Dee reports that a witness writes, "Sightings seem to be picking up again. Although. I'm wondering if it has anything to do with the airliner going down off the coast. The last time it was real active here was when the Egyptian airliner went down. On January 31, 2000, I saw another large triangular craft over the base. It was outlined with several very bright, non-blinking, red lights. Just like the last one, this one tilted to a completely vertical position and flew like this for quite some time. It then rotated back to horizontal, flew back and forth, and then descending straight down. Last night, I was watching a fighter over the base, when I noticed two dimly lit objects about a quarter of a mile in front of it. These objects were moving very erratically, back and forth, and up and down. The fighter appeared to maintain a steady distance behind them as they circled the base. I lost sight of the objects briefly behind a tree, but could still see the fighter's lights through the tree. I then saw the two objects coming out from behind the tree, still moving erratically. They suddenly got very bright, changing from an amber color to a bluish white, and literally shot out of sight to the north over the base. They disappeared in less than a second. The fighter did some tight maneuvering, circled around a couple of times, and then landed. Because of these two sightings, I'll be out again tonight, and well keep you informed. God bless. Thanks to BillyDee@ufossi.org.

ROBED HOODED ALIENS

Darlene writes, "Please tell me if the suggested responses to contacts of this type are of the "tongue-in-cheek" variety or just plain sarcasm. Unless I'm denser than I think I am, I can not see why there would be meteorite powder, silicon or other residue left behind by visitation; nor can I believe that such acts as contacting the police or contacting newspapers, etc., would produce anything but disbelief, and ridicule. Thanks to dcs

Editors' Notes: Thanks for your note; Well sometimes a little ridicule gives you a boost of courage. I go on radio several times a week, and I'm often ridiculed over my research. To my knowledge not one abductee has ever contacted the police or

their congressman about their abductions. When I talk to police they act very interested and claim they would enjoy such a case. We have numerous police and military officers joining MUFON and other organizations hoping to find answers. Both Derrel Simms and my investigators have found silver powder on abductees. We have noticed other anomalies indicating evidence is being left behind. For any of us to be believed we need evidence. We now have thousands of tape recordings of abductee's stories, but without real solid evidence they are considered interesting dreams. We have stayed up all night watching abductee homes, spent hours video taping, interviewing, discussing, watching videos, but little real tangible evidence has been obtained. We are aware the abductees seem programmed to destroy the evidence.

Many investigators spend their time and efforts as unpaid volunteers trying to solve this mystery. If I pick up the phone and make long distance call, drive to an abductee's home, video tape, it costs both time and money. I encourage abductees to collect evidence or call experts in for help. We have indications that some abductees may be harmed during an abduction. This can be checked with a blood tests and a physician's examination. Most abductees will not get tested, despite the fact they have insurance coverage. There are indications that black light can pick up a silver like powder left behind, and other tiny objects. If you give credence to Dr. David Jacobs from Temple University the future of the human race may be at stake. I don't think its funny, and I'm not poking fun. The craft in my opinion are real. We may not be sure what their aircrews are doing here. However, they are spending in real terms billions of dollars, their time and health to be here. I wonder why? I don't think it is a game for either side. More definitive research is needed.

MARS POLAR LANDER CERTIFICATE

Aaron G. Crossley, Jr. writes, "My name is included in a data tape that was sent to Mars aboard NASA's Polar Lander. MSFC passed around a signup sheet for names to be put on the Mars Polar Lander. The requirement was that you had to be 18 or under to get your name on the tape so I signed up. Kind of makes you wonder are Martians reading my name off a datatape as we speak? Thanks to Aaron G. Crossley, Jr
["Raverkid@earthlink.net"](mailto:Raverkid@earthlink.net) You can see Aron's Certificate at:

AUSTRALIA FLYING TRIANGLE

ENDEAVOR HILLS -- VICTORIA -- Peter Ho reports he saw a large V shaped UFO on January 2, 2000. Peter went outside to feed his dogs his 10:50 PM and decided to relax and do a bit of stargazing, He noticed a large, solid black V shaped object blocking out the Big Dipper constellation. There were dim orange lights along the front of the object. He could hear no sounds. Peter estimates it was five times bigger than a Jumbo Jet. He sighted the object for four seconds before it disappeared from view. Thanks to Alice Mitchell AUFORN Keith Basterfield Network Australia

SOUTH VIETNAM UNDERWATER UFO

GULF OF SIAM -- Joseph Foster writes, "In mid April of 1970, we were anchored four miles off shore on the US Coast Guard Cutter Mellon. The Captain authorized swim call in the late afternoon and I had the watch with a M-16 rifle on the flying bridge to guard for sharks. The swimming party was diving off the main deck into the water and swimming to a raft. Eight of us and the Captain were watching the 20 swimmers when our attention was drawn to a large underwater object, that slowly moved directly under the ship. The object was an elliptical shaped dark shadow, that was by our estimate was 90 feet in length and 30 feet wide. It was about 50 feet deep and moving perpendicular to the axis of our ship. The entire sighting lasted no more than 20 or 30 seconds. The men in the water had no idea that a large object cruised directly under them. We ruled out whale shark or whale because there was no gyration of a tail or any other appendages visible.

Our crew also had other UFO sightings. During our July, we were on Ocean Station Victor patrol, when we had radar contact with three targets traveling at speeds in excess of 3000 mph halfway between Midway Island and Japan. Eight crewman saw three white lights traveling southwest in a 'v' formation. A sitrep report was filed. Our second sighting took place in May of 1970 while we were 600 miles east of Guam. One of my duties as Quartermaster was celestial navigation. On the 4 - 8 shift, I had to shoot morning and evening stars. I was with the Captain 'shooting' the stars, when we noticed a bright shiny perfect sphere that seemed to have the consistency of liquid mercury. The object was traveling west southwest at 100 knots at an altitude of 2500 feet.

In Honolulu, I made friends with a Fleet Intelligence Yeoman, who stated, "We receive thousands of UFO reports from US Navy ships." UFOs come in and out of the water and fly directly in front of our ships. Thanks to Joseph Foster
miilennium@home.com and Carl W. Feindt at WATERUFO@prodigy.

WINDOW IN OUTER SPACE

R. G. Nicholas writes, "My girlfriend and I were lying on the hood of my car, just looking at the stars quietly on calm, clear, beautiful starlit night. I noticed four stars spaced evenly apart from each other like the points at the corner's of a window, it was a perfect square in space. All at once a light appeared at the lower right star and swiftly moved diagonally up to the upper left corner star. Within seconds it just as quickly returned to whence it had come. It moved really fast for the amount of area it had to cover between point A and point B. I'm sure it traveled from star to star, and those objects that I saw traverse that amount of distance that night were not from earth. I'll never forget it because I was wide-awake and 100% sober. Thanks to: NicholasRG

CHINA HAS FIRST UFO OF THE NEW MILLENNIUM

UFOs kicked off the New Millennium with the surprise appearance of a daylight disc on New Year's Day. At about 6:30 a.m. Beijing time on Saturday, January 1, 2000, a silver-gray UFO appeared over the Great Wall of China. It hovered, and was captured by Cable News network (CNN) TV cameras and broadcast live in the USA. Eyewitness M. Lamb was watching the CNN coverage "when CNN showed a shot of the Great Wall of China at sunrise. When they cut to the shot, there was a gray orb floating over the wall. Then it floated to the right, then up. CNN cut away from the shot without any explanation of the floating object. It was silver and appeared to float or glide without any means of propulsion."

Taiwan Radar is reporting that they have been picking up Unidentified Flying Objects coming from China towards Taiwan at around 24,000 feet. The latest report was on January 29, 2000, creating new tensions in the region. The objects that may be balloons could create a threat to commercial traffic. Thanks to swduncan@netzero.net (stefan duncan)

CAUS WINS FIRST ROUND IN UFO CASE

Citizens Against UFO Secrecy (CAUS) announced that, in a stunning and surprising defeat for the government and its proponents of secrecy, a US District Court Judge in Phoenix, Arizona, rebuked a Department of Defense attempt to deny a group of UFO activists the opportunity to argue its case in court. In the federal lawsuit, Judge Stephen M. McNamee, ignoring Department of Defense plea to dismiss the case outright, set February 7th at 10:00 a.m. for arguments on the adequacy of the government's search for information about an unusual aerial object. Thanks to Peter A. Gersten;
ufolawyer@caus.org.

SHUTTLE SPOTS UFO

Investigator Tom Sheets writes, "I just reviewed the tape of a June 1999, shuttle mission footage that was sent me via ISUR. There is a shockingly dramatic event on there that makes all

the other shuttle stuff (STS-48 and 80) look like fireflies. There is a BIG glowing orb that flies by one of the solar panels of either the space station or a satellite (the SS I think, we need a space 'expert' to look at it). This thing must be huge; it is obviously glowing brightly, seemingly round, you can almost see the disc shape, and seems to give off glowing propulsion like contrail. I don't think it's a meteor, this is in orbit, not in the atmosphere, but I could be wrong if distance to the object is great and shot was from above. I need some more opinions. It was from the June shuttle mission. There are many other smaller objects on parts of the tape, stuff like on STS-48 and 80 footage. One video of note shows a large glowing orb comes into the frame, the astronaut starts to use zoom on it, and the controller switches away. Thank to Toms Sheets ISUR Board Member. Editor's Note: We are trying to get some of these videos on our web site. They look like UFOs to me, but further analysis is needed.

PHOTOGRAPH BOOKLET of some of the best UFO shots available and data on their propulsion systems. \$10.00

BEFORE YOU BUY OR SELL A HOME SEE MY FREE REPORT -- All real estate agents are not the same? Some real estate agents or sales representatives are part timers and inexperienced. Others are experts with an excellent experience and capabilities. When you are selling or buying your home, you need to make sure you have the best real estate agent working for you before you make any important financial decisions on one your biggest investments! Remember, the majority of people do not know the right questions to ask, and what pit falls can cause major problems. Picking the right real estate agent can be a wonderful experience, and picking the wrong one can be a big mistake that can waste your time and cost you thousands! Find out, "What you need to understand before hiring any real estate agent!" These are the questions that many agents do not want you to ask. Learn how you can obtain the best real estate agent for your needs. To get a free copy of this report, just call (609) 654-0020 or e-mail us at Majorstar@aol.com. We can also help you with your own or corporate Worldwide Relocation to Australia, Benelux, Canada, Cayman Islands, England, France, Guam, Hong Kong, Israel, Japan, Mexico, New Zealand, Northern Ireland, Papua New Guinea, Philippines, Puerto Rico, and all 50 states of the United States. We also have help with associates that speak languages other than their native tongue.
