>You're very lucky. The Pretty Park worm can cause your system  
>to become unusable if you try to remove it incorrectly.  
>Information pretaining to this worm virus can be found at  
><http://www.f-secure.com/v-descs/pretyp.htm> and includes  
>instructions similar to those you had forwarded.

>Do not delete files32.vxd until you've made the registry  
>changes listed, and keep in mind that there are two locations in  
>the registry where it might be added and both must be checked.

>If you delete the .vxd file without making the appropriate  
>changes to the registry and restarting the system you won't be  
>able to run any executable programs on the system, which  
>includes the registry editor.

>Steve

Thank you Steve:

For those of you who are not confident in such matters, it pays  
to call the experts. The only chage for the 801 number is a  
long distance call. Expect no more than 10-15 minutes at the  
most to make the repair.

I chose the \$25 fee using the 800 number. For those who cannot

afford that, and I understand there are many, get yourself a cheap (\$0.05 a minute) service and make good use of it. It will cost you no more than ONE DOLLAR for a 20 minute call.

McAfee people are very savvy. They walk you thru every step.

Jim Mortellaro
